If yes, which one ?

What do you do ?

Employed

What kind of work contract do you have ?

Permeanent contract

How did you find the job you are doing ?

Refugees' program

The work you are doing has something to do with your qualifications ?

1

Are you satisfied with your current job ?

3

Do you feel appreciated by your employer and your colleagues ?

4

Did you get support to look for a job ?

Yes

If yes, who gave you the support ?

Refugees Welcome activists

Do you think that the experience with the hosting family has helped you to improve your work situation ?

4

Do you think that this experience helped you to improve your knowledge of French language and culture ?

5

My knowledge of French language and culture has improved thanks to...

Hosting family, Refugees Welcome activists, social network of the hosting family

Did you get support to find an accommodation?

Yes

If yes, who did you get support from ?

Hosting family and its network; Refugees Welcome activists

If you have managed to find an accommodation, what is your contractual situation ?

Social housing

Outside of your working environment, do you have relationships with other people ?

5

Who is your social network composed of ?

French

This project was funded by the European Union's Asylum, Migration and Integration Fund.

The content of this publication represents the views of the author only and is his/her sole responsibility.

The European Commission does not accept any responsibility for use that may be made of the information it contains.

Have you entered into a relationship with the social network of the hosting family?

5

Do you get involved in events of hosting family ?

5

If you take part in these events; do you feel comfortable ?

5

How do you rate your experience with Refugees Welcome ?

Mostly positive

Could you tell an enjoyable experience you lived with the hosting family ?

For the 2020 new year, there were more than 40 people. We made a huge feast with iranian and iraqi food, it was a new experience for me and I felt really happy and good.

Could you tell a difficult experience you had with the hosting family ?

Not for me, I was never uncomfortable or had any bad experiences

Do you feel happy and satisfied in your personal life ?

Very satisfied and happy in general

Do you think that the family hosting as a model for refugee integration is ... Completely positive ?

4

...supportive and enriching ?

5

...relatively positive

3

...difficult to handle

2

...a bit negative

1

...completely negative

1

Do you think due to the refugees' integration model based on family hosting of RW or on community engagement of Second Tree project, prejudicial barriers regarding the refugees could be reduced or eradicated?

Yes

When it comes to administrative obstacles, it's impossible to do things alone. The family helped me with all my documents especially for the language barrier. They also helped me find solutions, for example to get my diploma equivalency. For the language it was great: I only had 2-3 weeks of classes and they were once a week, done by volunteers. Otherwise, I learned

 ...difficult to handle  
 ...a bit negative  
 ...completely negative  
 Do you think due to the refugees' integration model based on family hosting of RW or on community engagement of Second Tree project, prejudicial barriers regarding the refugees could be reduced or eradicated?

It was very difficult because in reality, my host was not able to accommodate .me. She had divided her living room in half with a curtain and her children woke up at 6 AM, which woke me up too. I had to leave the house to be able to rest and go stay with friends. In the end she kicked me out without warning and the organization couldn't find me a solution in such a short amount of time.

Sometimes very happy, sometimes unhappy

- 1
- 1
- 2
- 4
- 4
- 4

No

It depends on the host family. If the people aren't ready to accommodate you, you can feel really bad and your life depends on whether or not it goes well. Maybe it's good for others, but all hosts are not equal and that can create the same discrimination we face anyway. ça dépend de la famille d'accueil.

Why?

If you have managed to find an accommodation, what is your contractual situation ?

Social housing

Outside of your working environment, do you have relationships with other people ?

5

Who is your social network composed of ?

Migrants in the same situation as me, French

Have you entered into a relationship with the social network of the hosting family?

4

Do you get involved in events of hosting family ?

4

If you take part in these events; do you feel comfortable ?

5

How do you rate your experience with Refugees Welcome ?

Mostly positive

There were so many good moments - they would invite me to dinner and it was always amazing. Christmas 2019 they offered me a gift, a beautiful necklace with earrings. Every weekend we'd go to the park, we'd see the families and children doing all these activities, it was beautiful.

Could you tell an enjoyable experience you lived with the hosting family ?

Not at all, well sometimes they would prepare things I didn't like, but I would tell them, maybe that was hard for her but I found it funny

Could you tell a difficult experience you had with the hosting family ?

Do you feel happy and satisfied in your personal life ?

Very unsatisfied and unhappy in general

...completely negative

Do you think due to the refugees' integration model based on family hosting of RW or on community engagement of Second Tree project, prejudicial barriers regarding the refugees could be reduced or eradicated?

Why?

With my other host, everything had been going well until covid. Her kid was not at all sensitive to my stress, she didn't understand that we can't always be happy, and that bothered me. When the host had friends over, she never introduced me, she never invited me, I felt bad.

Very satisfied and happy in general

4

4

5

2

2

1

Yes

I tell all immigrants that they have to meet a French family, a good one like the one I know. After you understand so much, and the family understands more what we suffer through when they have to share space with us. Living with a host family doesn't fix everything, but it helps a lot.

Why?

A man who is hungry is not free. A man on the street is not free. Staying with a host family allows you to collect your thoughts, and collect your plans. When you stay with them it's easier to know where to turn, and know what to do, and as a result you integrate yourself better.

How do you rate your experience with Refugees Welcome ? Mostly positive

Could you tell an enjoyable experience you lived with the hosting family ? I was on the soccer team of my city in Turkey. For my birthday, they surprised me with the jersey from that team with "93" on the back (nb: the number of the department where he lived with the roommates in Paris). It was really touching because it showed that they thought of me, they really took the time to do something thoughtful.

1  
1

Yes

It gives you the choice to integrate. But I think it's better to put young people with other young people, it allows you to learn more than just academic French, to talk more freely about stuff, about girls... A good match in terms of age is important for integration. With an older person, it can feel more unequal, because they want to teach rather than share. But in general, living with French people is reassuring, it protects you. You learn the norms and systems right away. I think that I also brought them more openness about Turkey. And that I helped them with a fear of refugees that a lot of French people have, with all the media stories and everything.

The content of this publication represents the views of the author only and is his/her sole responsibility.

The European Commission does not accept any responsibility for use that may be made of the information it contains.

Why?

It can help on certain specific things, but only if the person is open-minded - it really depends on the host family and if they're truly ready to open up their life to you. In that case, yeah, you meet a lot of people and it helps a lot. If not, you still feel really lonely, and that's a difficult thing.

Respondent 11

together, she never brought home a date, for example. It was really emotional between us, to the point of being a bit toxic.

Sometimes very happy, sometimes unhappy

4  
5  
5  
2  
1  
1

Why?

Yes

I would say it's mandatory for integration. Also, the fact that it's free really allows you to save up, to establish yourself a bit. Even though that must have been hard for her too - it was expensive ! Plus for her everything had to be all organic and that costs so much more. One thing though is that I don't think I could ever be friends with a French person. They're really nice, they really want to help, but they can't not see me as a refugee. For example, they're happy to work with me, even invite me to dinner. But going out, even just getting a drink, that never happens. But in any case, it's great to live in a family, very positive, especially if you're an asylum seeker which I was when I lived with Caroline.

3

...a bit negative

2

...completely negative

1

Do you think due to the refugees' integration model based on family hosting of RW or on community engagement of Second Tree project, prejudicial barriers regarding the refugees could be reduced or eradicated?

Yes

It really depends on the family. It can help a lot but mainly when you're an asylum seeker, the families tend not to completely understand what we're going through. We aren't free just like that, we have a lot of things to do and to think about.

Why?

This project was funded by the European Union's Asylum, Migration and Integration Fund.

The content of this publication represents the views of the author only and is his/her sole responsibility.

Do you think due to the refugees integration model based on family hosting, prejudicial barriers regarding the refugees could be reduced or eradicated ? Why ?

yes: if somebody leaves their country, wants to insert themselves in society, does what is necessary to integrate, we have to accept them, and we also have to give them the means necessary to learn the culture, the language, not to be exploited. Hosting is a way to give these manes and so to lift some of the barriers to integration.

Yes of course, it showed me many things, I don't really know how to express it, it changes us in a way that can't really be described. More empathetic towards the people around me, more open mind.

Could you briefly describe a pleasant situation during the hosting experience ?

Could you describe a difficult situation during the hosting experience ?

There were moments of difficulty due to:

Did you play any role concerning the autonomy of the refugees?

Do you think that the refugees integration model based on family hosting should be considered as ?

Over 4 years there are many, we created a friendship. Going to play soccer together, having people over... now there's no differentiation, everyone's on the same level, each person does their housework one week per month, everyone is on the same level in relation to one another.

At the very beginning it's kind of hard for everyone to find their place. Shyness can be taken badly, you might think the person is distant, not necessarily grateful or interested while we thought we were doing a huge gesture. It's a question of how you interpret emotions, on their side the person feels indebted, like he needs to justify his story and his journey. The idea of have refugees integrated in families can be idealized, since we have this image of warriors, or even entrepreneurs, we have too many expectations because the image is so idealized.

Do you think due to the refugees integration model based on family hosting, prejudicial barriers regarding the refugees could be reduced or eradicated ? Why ?

Yes of course, it opens your mind and betters your understanding of the other, you end up talking about it to others and they learn about the subject. it's a way to integrate and live in a new culture.

Environmental activist

What motivates you to engage with RB

The photo of Aylan (Turkish boy drowned on the shore), meeting with an Italian journalist living in Lampedusa and learning about the migration across the Mediterranean. It was a wake up call with so much information in the media and then meeting RB in a Singa information session.

What are the challenges you encountered with RB

Little contact, no support for the beneficiaries or the hosts, I felt a little powerless up against the problems my hostess was facing since I was isolated. There was no mediation, I needed some kind of training or advice to not be so awkward and to understand certain reactions in order

Do you think that the refugees integration model based on family hosting should be considered as ?

Very positive experience with the couple and the young kids

There was a huge age difference since my husband was retired. We didn't really get to have a relationship since he was always with his friends, he was very weird with his friends and treated them like slaves, like he was above them and like everyone was at his service. He ended up being a bit hateful and condescending towards me, mostly spoke with my husband due to cultural differences.

Could you briefly describe a pleasant situation during the hosting experience ?

hosted for 50 years (peruvian immigrants in illegal situations, in their townhouse, they still live there, they started renting and got to be integrated in France after years as asylum seekers in difficult situations, they have a very strong bond, they even got invited to Peru)

Could you describe a difficult situation during the hosting experience ?

Not with RB but: the teachers' collective of the D'Alembert High School in Aubervilliers introduced me to a young person after RB. I thought I would host him temporarily, that turned into 6 months, he wasn't very polite and didn't listen to me, he brought his dad over and then refused to leave when I asked him. I had to call a lawyer and the collective was not very available.

What is your current job situation ?	Employed
Do you have any activism experiences ?	No
What motivates you to engage with RB	Before my involvement with RB, I had already hosted a Tibetan father then a family via the ELAN program managed Samusocial of Paris [public health service]. This first hosting experience was really beneficial (as much for the hosts as for the people hosted). I really learned how important the codes and cultural habits in daily life are for integration, and how living together can really help newcomers in that area. Afterwards, we hosted more with RB.
What are the challenges you encountered with RB	I haven't felt any particular difficulty after 4 hosting experiences with RB. When there was one problem with one of the hostees, RB were extremely available and responsive and found a solution very quickly.
Before starting the host family experience, how much did you know regarding refugees situation ?	3

a few hours per day - 5  
one meal per day - 5  
one meal per week - 1  
events and free time - I think quality of time spent together is more important than quantity

Were there any changes in your person after this experience ?

Yes, the opportunity to host people from lots of different parts of the world (Asia, central Europe, subsaharan Africa) opened my eyes to perspectives and values that I had never considered. The people that I hosted have for the most part been excited to share their culture, their perspective, and their personal story that are all very different from the Western European perspective. Especially when the exchanges grow over time and turn into friendship.

Do you think due to the refugees integration model based on family hosting, prejudicial barriers regarding the refugees could be reduced or eradicated ? Why ?

Non, les barrières discriminatoires (administratives, policières, institutionnelles,...) seront toujours là. En revanche, ce modèle d'intégration permet d'expliquer la présence et le fonctionnement de ces barrières et ainsi de déculpabiliser l'accueilli qui se sent trop souvent pointé du doigt.  
No, the discrimination barriers ( administrative, punitive, institutional...) will always be there. However, this model of integration does help you understand these barriers and their ways of working, as well as to help comfort the refugee who is all too often left to blame.

How much of your time have you shared with the refugee

a few hours per day - 2  
one meal per day - 2  
one meal per week - 5  
events and free time - Some meals per week, some teatimes. During the 2 and a half years that we lived together, we were in confinement for one year so I guess "a few hours per day"-3

Were there any changes in your person after this experience ?

Yes, I would love to keep being involved and giving my time, but in another way, with respect to my boundaries, because I have trouble setting them and I allow myself to get overwhelmed by certain issues or requests. And as for my family debt, I feel like I've done my part! They can go find my brother or my cousins!

Could you briefly describe a pleasant situation during the hosting experience ?

We both love to cook and we've shared many meals together, especially during holidays. Nasrin is very funny, so we've laughed a lot in the end!

Could you describe a difficult situation during the hosting experience ?

Her father's death. She got the news at my house, I heard her scream, and I rushed over. It was violent, brutal, sudden, a real electric shock, with the horrible question of whether or not to go to the burial, and disrupt her life in France and her asylum request. Otherwise, in general, all the moments when Nasrin had no activity and was constantly at home (and me too because of covid). We also lived a good part of our time together in confinement and during strikes (including 6 months of delay due to the first confinement. It's no one's fault but it was challenging

Other (specify) -

I had, thanks to my network, found all the furniture that Nasrin needed, found a truck, and helped her to move out

Do you think that the refugees integration model based on family hosting should be considered as ?

completely positive - 1  
enriching and supportive - 5  
relatively positive - 1  
difficult to handle - 1  
a bit negative - 1  
totally negative - 1

Do you think due to the refugees integration model based on family hosting, prejudicial barriers regarding the refugees could be reduced or eradicated ? Why ?

I have trouble understanding the question. Honestly, I'm not very optimistic about reducing or eliminating discrimination. I think the people that host asylum seekers already have a sense of what's going on and aren't discriminatory. And sadly, I don't think that we can totally protect them from the systemic racism in our country. Then again, i guess that solidarity and mutual aid must give them some hope. The people I know around me that learned about asylum seekers and their journey weren't necessarily that informed, but they weren't racist - they're my friends after all, I choose well! I don't know how to educate racist people so that they are no longer scared and that they realize that asylum seekers are the victims. We would have to have them meet asylum seekers and realize that they're human beings - as crazy as it seems to have to prove something like that. I don't know... it's really irritating to me, and the few times I've heard "we can't take on all the woes of the world," I got murder fantasies. If you have any ideas I'd love to hear them!

Country of origin	France
Current city of residence	Clamart
How is your family composed ?	Couple with children
What is your level of education	University
What is your current job situation ?	Employed
Do you have any activism experiences ?	Abroad
What motivates you to engage with RB	The extra space we have in the house; the desire to support people integrating in French society; the knowledge of how difficult is it to find housing in Ile de France
What are the challenges you encountered with RB	Lack of understanding for the refugees, understanding for the hosts with regards to the advancement of the refugees' journey. I think that RB is at a turning point in terms of its structure and should work on it's model of host - refugee - volunteer - and team to guarantee 1) efficiency and relevance in terms of sourcing, 2) understanding the monitoring of the refugee (often get feedback of not knowing who is their main interlocuter, the social worker, the coordinator, or the host) and 3) increasing the hosting volume given the means allocated
Before starting the host family experience, how much did you know regarding refugees situation ?	5

Have your neighbors accepted the presence of the refugee you hosted:

serenity - 5  
optimism - 1  
acceptance - 5  
skepticism at first then gradual acceptance - 1  
suspicion - 1  
hostility - 1  
aggression - 1

How much did you support the refugee you hosted in the following areas:

financial support - 1  
transportation - 1  
employment search - 5  
housing search - 5  
administrative support - 5  
daily issues - 5 et other : Understanding cultural and social codes, knowledge of where to go to get help and for culture and leisure

What have you shared with the refugee you hosted ?

social network - 5  
family network - 5  
free time - 5

How much of your time have you shared with the refugee

a few hours per day - 1  
one meal per day - 1  
one meal per week - 5  
Other :Lots of daily informal moments of conversation about nothing and everything!

Were there any changes in your person after this experience ?

Yes, the experience allows us to create relationships with people that we probably would never have met otherwise; it also allows us to know our limits to keep up our commitment on the long term (we're at our 6th hosting experience!) : the empathy for lived experiences (sometimes absurd, sometimes very difficult) by refugees can sometimes bring up a lot - too many - subjects. the experience also introduces us to new personalities, perspectives, and different reactions from us. We also think that it's a great experience for our 2 and a half year old daughter

Could you briefly describe a pleasant situation during the hosting experience ?

We have so many ! For example, learning that a refugee hosted for 6 months and with a lot of difficulties to integrate and learn the language and find a job is now way more comfortable in French and found work makes us extremely happy and helps us realize that all our efforts during 6 months were worth it!

Could you describe a difficult situation during the hosting experience ?

Our first hosting experience was complicated because the person was in a lot of personal difficulty. We had a tense Christmas with a real argument and a painful gift return.

There were moments of difficulty due to:

communication problems - 5  
cultural differences - 5  
age differences - 2  
unstable work situation - 5  
personal situation - 5  
other (specify) -

Did you play any role concerning the autonomy of the refugees?

Housing search - 5  
Employment search - 5  
Drivers Licence - 1  
Other (specify) - Search for a program of study, understanding procedures like the appeal for housing...

Do you think that the refugees integration model based on family hosting should be considered as ?

"completely positive - 1  
enriching and supportive - 5  
relatively positive - 1  
difficult to handle - 1  
a bit negative - 1  
totally negative - 1

No

My son is the founder of the organization but also the number of people on the street, I wanted to act without knowing how to

The lack of interaction and support, no information on the program planned for the person I was hosting. Offering a home is one thing, but being a social worker is another. It's a daily learning process. How to integrate, get her to speak French, to feel comfortable without being intrusive, it's not always easy to find the right move

Do you think that the refugees integration model based on family hosting should be considered as ?

Après deux ans à attendre son statut, un stage de cuisine, Palky se lançait et avait trouvé un travail. Puis tout s'est arrêté avec le Covid et elle a sombré. Je me sentais démunie et incapable de vraiment lui apporter de l'espoir. Sinon lui donner l'envie d'apprendre le français, mais son espoir d'indépendance, de liberté se voyait en effet arrêté. Je sentais que nous étions arrivés au bout de la route. C'est une chance que l'association le moulin du Rû l'ai intégrée. Ils lui ont apporté ce que nous ne pouvions faire . Soigner les plaies, la violence reçue , pour regagner confiance et identité. mais aussi former et donner un métier. Le booster nécessaire.

After waiting for two years for her refugee status, and a cooking internship, she went for it and found work. Then everything stopped with Covid and she went dark. i felt powerless and incapable of bringing her any real hope

Do you think due to the refugees integration model based on family hosting, prejudicial barriers regarding the refugees could be reduced or eradicated ? Why ?

Sort of, but I'm absolutely convinced that the hosting should be accompanied by training and outside meetings and especially psychological support. We don't necessarily notice cultural differences the first time we host. Finding a home is also finding a bit of intimacy. As a host, I wanted to integrated the refugee into our family's daily life, but she really needed alone time to find herself. To live according to her schedule. In reality it's learning to live together and understand each others' expectations that's the difficult part. You have the impression of doing too much or not enough.
