## Multiplier Event - Glocal Factory September 21st, at the University of Trento.

Glocal Factory (from the RACIP project consortium) together with representatives of the Master DIRPOM (Law and Policy of Migration) of the University of Trento, are delighted to announce the multiplier event "Immigration, integration, and civil society involvement" which will take place at the University of Trento on the 21st of September at 3 pm,

The event will start from the experience of the Racip project and its implementation of an integration model based on private sponsorship (civil society involvement), to then compare with the most interesting aspects of hospitality and services in the Trentino world and meet the Master DIRPOM, the latter aims to provide not only the legal and sociological contexts of the phenomenon but to identify useful tools and good practices in social and community work.
